This document contains a list of mail order/internet links to aid in finding that hard to locate part that probably can’t be found locally.

Below you will find a brief description of the supplier and what they sell and a link to their website.

- The most important link is the one to the following site, what you will find here above all else is information and support for your new addiction. Teardrops & Tiny Travel Trailers at http://mikenchell.com/forums/

This list was compiled and will be updated regularly by Rich U. My Teardrop & TTT Forum username is Nitetimes. I can be contacted at ‘nitetimes@lycos.com’ with any problems with the list or additions you think might be relevant to the list.

Editors Note: Please keep in mind as you click on the links below that even if they are listed for a particular item it is often a good idea to browse the site, you might be pleasantly surprised to find something else you were looking for is in the same site. Some of the sites do not allow linking to a particular page/item (hot linking) for those sites I have tried to give a part number and/or a name of the item to search for. I will be updating this list as I collect more links to things I think should be in it. If you think something that might be useful here please bring it to my attention, also if you find any dead links let me know. I have done my best to make sure all links go where they are supposed to but the web is an ever changing thing so there’s always a chance that a page with move or change. Please keep in mind that not all of these products have been used or tested by myself or other board members so use discretion in your purchases.

Patterns and Plans

- Patterns and plans for teardrops & TTT

Full size patterns and detailed plans to get you started on the right track can be found here. One of the most popular is Kuffel Creeks found here http://www.kuffelcreek.com/
I believe the one that will soon run a close second will be the Teardrop Builders Manual from Steve Frederick available here [http://www.steve-frederick.com/shopman05](http://www.steve-frederick.com/shopman05). Steve was kind enough to volunteer his list of suppliers that he includes with his shop manual, they are here [http://www.steve-frederick.com/links.pdf](http://www.steve-frederick.com/links.pdf). Thanks Steve.

The Generic Benroy Plans are nearly complete, they are being drawn up by Mike (T & TTT site owner). There are still a few sections to be finished but there is plenty of info for the trailer build itself. Most of what’s left to add is finish details. I believe the plans are already being utilized by some folks. Give them a look thru, I believe you will be impressed. [http://www.mikenchell.com/images/GenericBenroyPlans.pdf](http://www.mikenchell.com/images/GenericBenroyPlans.pdf)

Others are:
[http://www.tinytears.cc/patterns.html](http://www.tinytears.cc/patterns.html)
[http://www.teardrops.net/LilBear/plans.html](http://www.teardrops.net/LilBear/plans.html)

Purchasing plans is not always necessary either, there are a lot of free ones out there on the web that can be found with a nearly effortless search just typing ‘teardrop trailer plans’ in Google gets you pages full of info.

---

**Trailers**

- **Bolt Together Trailers**
  Red Trailer 4x8, 5x8, 6x10 & 6x12 bolt together trailers

  Harbor Freight has a 4x8 bolt together trailer, one is rated for 2000 lbs, and the other is rated for 1200 lbs
  1800 lb trailer
  1175 lb trailer

  Northern Tool also lists a 4x8 trailer with a load capacity of 960 lbs, however the wheels are listed as not included.

- **Welded Trailers**
  Tractor Supply Company has a 5x8 listed on their site but reports are that you can order various configurations from the store directly.
  2400 lb 5x8 trailer
A popular Tractor Supply trailer, I believe this one has to be special ordered at the store: Carry-On trailer 4X8 with no floor SKU #1000215, 1500lb GVW, 5 lug 4.5 center wheels, lights, wired, safety chains, assembled & ready to go. These can be ordered in other sizes too if you can find a co-operative sales person.

Snowbear trailers has a line of welded trailers, several different styles, this one is a 54”x92” with a 2000 lb gross. Check the site for others.

Trailers can also be fabricated locally by a local welder. You could even buy the metal from a Metals supermarket, and have it welded up by a local muffler shop.

If you have access to a welder or a friend that welds be sure to check with your local salvage yards. Lots of them sell unused steel that has been scrapped by large companies at ‘by the pound’ scrap prices. These pieces are most often called drops.

---

**Trailer Parts Suppliers**

- **Parts suppliers by name**
  - 357 pages of RV parts…have fun [http://www.hilltoprv.net/browseproducts/](http://www.hilltoprv.net/browseproducts/)

---

**RV Parts Suppliers**

- **RV Parts supplies/ refrigerators, furnaces other parts**
  - A list of RV salvage and surplus dealers [http://www.rv.net/obsolete/index.cfm?action=group&groupid=1](http://www.rv.net/obsolete/index.cfm?action=group&groupid=1)
Axles, springs, jacks

- **Suppliers of trailer parts**
  Axles, torflex, and spring axles can be purchased from several online suppliers, most of which have detailed information on how to measure your frame to get the proper size axle and have the tire clearance you need.

  - Torflex is a very popular axle
  - Standard and drop tube spring type axles
    - [http://www.luckyb.com/105.htm](http://www.luckyb.com/105.htm)
    - [http://www.etrailerpart.com/](http://www.etrailerpart.com/)
      - etrailerpart carries the Flexride adjustable torsion axles which give you the option of adjusting your ride height (best done before installing fenders)
      - [http://www.etrailerpart.com/torsionaxles.htm](http://www.etrailerpart.com/torsionaxles.htm)
    - Standard and drop tube spring type axles as well
      - [http://www.etrailerpart.com/2ktrailerAxle.htm](http://www.etrailerpart.com/2ktrailerAxle.htm)
    - Another axle supplier
      - [http://www.bageco.com/traileraxles.htm](http://www.bageco.com/traileraxles.htm)
    - Limited axle supplies
      - [http://www.teardroptrailers.net/parts/axel/axel.htm](http://www.teardroptrailers.net/parts/axel/axel.htm) …best to contact by phone…phone # is 530 878-0407
    - Torsion and spring axle and parts supplier
      - [http://www.axisproducts.com/index.html](http://www.axisproducts.com/index.html)
  - Good selection of repair/replacement parts, lights and wiring etc.
    - [http://lowcosttrailersupplies.com/](http://lowcosttrailersupplies.com/)

Axles can also be purchased from places such as Harbor Freight and Northern Tool as well as locally if you have a trailer manufacturer near you. Sometimes the higher price dealers charge will be more than offset by the extra cost you pay in shipping from the parts supplier. You need to decide which option is best for your particular situation.

**Wheel Spacers/Adapters**

If you plan to use a particular wheel on your trailer, say one that matches your tow vehicle and there is no hub to match that bolt pattern you can order custom hub adapters to change the standard bolt pattern to whatever you need. Try these to get an idea what’s out there.
Fenders

- **Custom and standard trailer fenders**
  Fenders can be fiberglass, steel or homemade from wood and/or aluminum
  Grant offers quite a few styles of fiberglass fenders on his site
  http://www.teardrops.net/LilBearparts.html#fenders
  Here’s some more popular glass ones
  http://www.teardroptrailers.net/parts/fender/fender.htm ....best to contact by phone...phone # is 530 878-0407
  Retro glass fenders
  http://www.teardropparts.com/sub-pages/teardrop%20trailer-fender.htm
  Steel fender supplier
  http://www.kampco.com/catalog/fenders.html
  Round and jeep style steel fenders

- **Fender chip guards**
  Clear Mask fender paint chip protection
  http://www.clearmask.com/

Wheels

- **Custom wheel suppliers**
  This is a pretty good list of manufacturer bolt patterns in case you decide to get your wheels at the local salvage yard.
  http://wheeltool.com/info/5bolt.html
  Vintage wheels and tires

Trailer Lighting

- **Exterior trailer lighting**
  Vintage tail lights and mounting brackets
  http://www.teardroptrailers.net/parts/lighting/lighting.htm ....best to contact by phone...phone # is 530 878-0407
  More retro tail lights here
  http://www.teardropparts.com/sub-pages/trailer-accessories.htm
  Nice license plate light/bracket and side marker lights
  http://www.teardrops.net/LilBearparts.html#LicensePlateBracket
Large selection of retro lights
http://www.taillightking.com/
Modern style trailer lights
Clearance lights
https://www.rvsurplussalvage.com/catalog/display.php?category_id=60
Modern style tail lights
LED lights and bulb replacements
1157 bulb replacements
http://www.webbikeworld.com/r2/led/led.htm
LED tail and marker lights
http://www.buytruckstuff.com/ledlights.htm
http://www.delcity.net/delcity/servlet/catalog?parentid=56173&page=1
LED lights and replacement bulbs
http://www.superbrightleds.com/led_prods.htm

### Stabilizer Jacks

Bolt on or weld on stabilizer jacks can be found at most trailer supply outlets. They can also be found at discount tool outlets
Atwood and Fulton stabilizers
http://www.northerntool.com/webapp/wcs/stores/servlet/NTESearch?storeId=6970&N=0&Ntk=All&Ntt=stabilizer%20jack&Nty=1&D=stabilizer%20jack&Ntx=mode+matchallpartial&Dx=mode+matchallpartial

### Hinges

- **Hurricane Hinge**
  Using a hurricane is the easiest way to a waterproof hatch. This is a specialty item, which can be found at one of these two places. It has been noted that if you are going to use a hurricane hinge it is a good idea to have it on hand during your build
  http://www.teardrops.net/lilbear/parts.html#hinges
  http://teardropparts.com/sub-pages/teardrop-hardware.htm

Some people have used stainless steel piano hinges and covered them up with rubber. They can be found here
www.mcmaster.com page 2809, cat # 1658A867
A large variety of piano hinges here also
• Stainless steel hinges for the side doors
  www.mcmaster.com page 2809, cat # 12075A7
  Source for SS hinges, shipping is a little steep
  http://www.stainless-hinges.com/stainless_continuous_hinges.html#group_hinge_type_3
  http://www.austinhardware.com/product.asp?pf%5Fid=544&dept%5Fid=36&sku=ALH+4K+CH+LH&mscssid=GP7E6GGRPJ259G441C8GUU7G0A500439

• Plastic Hinge
  Plastic piano hinges, the jury is still out on the usefulness of these plastic hinges
  http://www.monroeengineering.com/hinges/living-hinge-plastic-piano-hinge.htm

Windows

• Crank out windows
  Crank out windows are the classic looking teardrop windows, and because of their design, will probably keep most of the rain out of your teardrop
  http://www.teardrops.net/lilbear/partst.html#hinges
  http://www.teardroptrailers.net/parts/window/window.htm …best to contact by phone…phone # is 530 878-0407
  http://www.teardropparts.com/sub-pages/trailer-accessories.htm

Locally you can probably find crank out windows at any store that sells truck caps and a lot of camper supply places either have them on hand or will order them for you. Some salvage yards will let you walk thru and check for truck caps and scrapped RV’s. Here’s an RV salvage yard in Indiana
  https://www.rvsurplussalvage.com/index.php

• Sliding windows
  Sliding windows have the advantage of not hitting your teardrop doors when you open them. On the downside, if it’s raining and windy, the rain can blow right into your teardrop.
  http://www.teardrops.net/lilbear/partst.html#hinges
  http://www.tjtrailers.com/store/trailer-doors-windows.html#10238
  http://www.buccaneermfg.com/

• Opening windows
  Port hole type windows
  Somewhat pricey but nice windows come from boat part suppliers
• **Non opening type windows**
Port hole and other style non-opening windows can be found here
http://www.trucknvans.com/Specialty_Windows_Portholes_s/981.htm

Rubber seal to make your own custom shaped non-opening windows
http://www.austinhardware.com/dept.asp?dept%5Fid=388

Look around for old mobile homes that are either abandoned or being stripped for scrap, these often had the small crank out windows in the bathrooms. And likely as not you can get the windows for nothing or next to it.

---

### Wood Suppliers

• **Bendable plywood**
A lot of builders use flexible plywood also known as Bendy Birch it is not always necessary but it can be found here.
http://www.boulterplywood.com/

A long list of wood suppliers on this page, scroll down to the links

Other good sources of bendable ply and specialty size sheets are local cabinet makers and sign shops, they will often work with you to get what you need from there suppliers.

Most of your other lumber can be found at the big box stores as long as you want standard sizes and grades. Special sizes, grades and wood types can most often be found at local smaller lumber suppliers in your area and they are more likely to work with you to order what you want.

---

### Roof Vents

• **Roof Vents**
Another item that is a good idea to have on hand while building is the roof vent you intend to use, it makes fitting it much easier.

A very popular 12v vent is the Fantastic Vent
http://www.fantasticvent.com/home/home.html There is a list of dealers on their site, shop around to get the best price on the model you choose.

Ventline also has 12v and 110v roof vents
http://www.pplmotorhomes.com/parts/rv-vents/ventline-roof-vents.htm

Non-powered vents can be found here

A lot of different styles of vents can be found here along with quite a few other RV and trailer supplies
http://www.pplmotorhomes.com/index.html
Another vent and parts supplier
http://www.marksrv.com/vents.htm
Putty tape for sealing vents and windows
http://www.campingworld.com/browse/skus/index.cfm?skunum=4698&src=SRCH&tcod e=37
A very good source for the Fantastic Vents, reasonable prices and lots of options, good service…recommended by MJ
http://members.aol.com/fantasticvent/
Interesting powered roof vent, can be used in the rain

Non-powered roof vents
http://www.teardrops.net/LilBear/parts.html#Vents

Vent cover with fan, rain or shine operation
http://www.austinhardware.com/dept.asp?dept%5Fid=388

Adhesives

- **Commonly used adhesives**
  Some of the more popular glues used are;
  Gorilla Glue, it is a polyurethane, water activated glue that is very strong but a little messy, use of gloves is recommended as it bonds well to your skin.
  http://www.gorillaglue.com/home.htm
  Titebond II & III are also used extensively in some builders shops
  http://www.titebond.com/
  PL adhesives are very commonly used also, they come in a large variety for different types of jobs, found at most lumber supply stores.
  Aluminum adhesive – The most commonly used adhesive for holding the skin on the outside of the TD until it is trimmed out is Henry 663 or 263
  http://www.wwhenry.com/index.htm
  Some suggested adhesives
  http://www.atrim.com/Page67.html at this site  http://www.atrim.com/
  http://www.glfi.com/supplycatalogg.htm look under ‘supplies’
  Epoxy’s are also very popular adhesives among TD builders, these are some of the most common ones
  West System epoxy coating products
  http://www.westsystem.com/
  http://www.raka.com/
  http://www.shopmaninc.com/epoxy.html
Another source for epoxy resins… the link is a little strange, just click ‘here’ on the page. http://www.noahsboatbuilding.com/noahsusa/AMAZING/index.asp?CartId={D6F49E8B-0E60-4035-9DDE-2D7EVEREST12F1ECD40}

Of course whatever glue you regularly use that you prefer will probably work just fine.

**Specialty Tools**

- **Specialty tools or things you might not normally buy**
  One of the tools most commonly purchased during a build is a Kreg pocket hole jig http://www.kregtool.com/
  I believe this is the most often purchased set, it can be found at Lowes and on-line I don’t know that HD carries them in other areas, mine don’t.
  There are also others out there Kreg is not the only one and definitely not low budget, here are a couple less pricey models
  http://www.rockler.com/ecom7/findprod.cfm?sku=2087
  http://www.pennstateind.com/store/phjigjr.html

  I can’t testify to the quality of any of these except the Kreg which is the one I have.

**Fasteners**

- **Screws, nuts and bolts, etc.**
  This company supplies a huge variety of fasteners for nearly every application. If you click locations and use the store locator at the bottom of the page you can probably find a store within a reasonable distance from you. You can also do on-line orders.
  http://www.fastenal.com
  Deck screws – these self tapping deck screws work great for attaching your framing of floor ply to the frame. Go to the bottom of page on left.
  Deck screws here also
  http://abctrailerparts.com/Floor-Screws.html
  Spaenaur – Fastener supplier
  http://www.spaenaur.com/default.asp
  Another source for deck screws
Tools and Equipment

Harbor Freight – Excellent source for tools and equipment for the budget minded builder that will use their tools primarily for their TD build and other household projects. Mostly for that tool you need that doesn’t need to “last a lifetime”.
http://www.harborfreightusa.com/usa/common/start.do

Northern Tool and Equipment – Also a very good budget tool supplier. Supply both wood and metal working tools.
http://www.northerntool.com/

McMaster-Carr – Suppliers of nearly everything but searching is required because you can’t hot link to a page in their catalog. Here a little imagination is a must, use any name you can think of that it might be called if at first you don’t find what you are looking for, it might just be under a different name. If you find anything listed here it will be by page and part number.
http://www.mcmaster.com/

Wood working tools and supplies, anilin dyes
http://woodworker.com/cgi-bin/home.exe

Large selection of tools here also
http://www.woodcraft.com/
http://woodworker.com/

For you left coasters here is a long list of tools and supplies, wood suppliers and finishing supplies located mostly in Calif.
http://www.woodwest.com/suppliers.html

A good variety of tools and supplies between these next ones, as always do a little shopping for the best price.
http://www.garrettwade.com/index.jsp
http://www.mcfeelys.com/
http://www.tools-for-woodworking.com/index.asp
http://www.woodturnerscatalog.com/
http://www.sandingcatalog.com/
http://www.leevalley.com/

Harbor Freight Coupon

- Discount Coupon
Use these links to get to the Harbor Freight discount coupons. They seem to be long running internet coupons that the expiration date changes on when it runs out. The coupon varies so it might be a good idea to keep going back to it until you find the best deal.
http://www.harborfreight.com/cpi/emails/week_1_retailA/coup_top.jpg
‘Online inside track’ club, you’ll have to decide whether it’s worth the 10 bucks.

### Aluminum Suppliers

- **Aluminum suppliers**
  There are quite a few online aluminum suppliers of sheet stock and trim stock, the best thing to do is try to find the ones closest to your location to keep shipping cost down as they can really eat into the final cost of a ‘good deal’ from a supplier. It is most often best to try and locate your sheet stock close enough that you can pick it up whenever possible.

  **Sheet and extrusion supplier**
  http://www.saf.com/
  This one has lots of distributors nationwide, go to the site and click on ‘geographic diversity’ to find the supplier nearest you

  **http://www.rsac.com/default.asp**
  A good supplier for the folks in the mid-west
  Alreco Aluminum Surplus Supply
  11299 Brighton Rd.
  Henderson, CO 80640-9335
  **Phone:** 303-287-7210
  **Fax:** 303-286-8622
  Other good sources for wide sheet aluminum and some angle and extrusions would be sign shops in your area. They frequently work with aluminum sheet that is over 4’ wide and often will work with you to find what you need. Some of it can even be had in a variety of colors.
  Trailer repair facilities also often carry 103”-105” wide aluminum used on the roofs of semi trailers, it usually comes in white and they roll it up so you can transport it. This is generally purchased by the linear foot off a large roll.

  **Sheet aluminum supplier**

### Alternate Wall Coverings

- **Coroplast**
  http://www.harbersales.net/

- **Polymax board**
  http://www.farmtek.com/webapp/wcs/stores/servlet/ProductDisplay?catalogId=10052&storeId=10001&productId=58779&langId=-1&division=FarmTek&parent_category_rn=38853&top_category=&breadcrumb_trail=Building+Materials%7CPolyMax+Plastic+Wallboard&breadcrumb_cate
Molding

- **Edge and trim molding**
  Soft, bendable aluminum edge and trim molding, also T-molding and rain gutter: [http://www.teardroptrailers.net/parts/window/window.htm](http://www.teardroptrailers.net/parts/window/window.htm) …best to contact by phone…phone # is 530 878-0407
  A wide assortment of aluminum trim can be found here but they do warn you up front that it can be expensive to ship. [https://www.rvsurplussalvage.com/catalog/display.php?category_id=64](https://www.rvsurplussalvage.com/catalog/display.php?category_id=64)
  A wide selection of trim and seals can be found here. [http://www.trimlok.com/](http://www.trimlok.com/)
  T-molding and drip molding [http://www.teardrops.net/LilBear(parts.html#LicensePlateBracket](http://www.teardrops.net/LilBear(parts.html#LicensePlateBracket)

It can save you a lot of $ in shipping if you check local RV sales and repair places before ordering online. Often times you can get better prices from them because they will sometimes have leftover stock from repair jobs.

Insulation

- **Insulating your trailer**
  Is entirely a personal choice, if you decide to insulate you will find that most use the pink or blue like these: [http://www.owenscorning.com/around/insulation/products/foamular.asp](http://www.owenscorning.com/around/insulation/products/foamular.asp)
  [http://www.dow.com/styrofoam/na/iso/tuff_r.htm](http://www.dow.com/styrofoam/na/iso/tuff_r.htm)
  Foil bubble foil or FBF insulation has a very good R value and is easy to work with It can be found in the big box stores and HVAC suppliers. If you don’t see it anywhere else check the aisles that have duct work it can usually be found there. [http://www.radiantbarrier.com/tempshield_single_bubble_double_.htm](http://www.radiantbarrier.com/tempshield_single_bubble_double_.htm)
  Another option for those that don’t mind spending the extra bucks to make sure every nook and cranny is well insulated would be the spray in foam that can be purchased in a DIY kit now. A little pricey but will definitely do the job. [http://www.fomofoam.com/index.htm](http://www.fomofoam.com/index.htm)

Specialty Coatings

- **Epoxy coatings**
  West System epoxy coating products
Woodworking Specialty Suppliers

- **Hard to find woodworking bits and pieces**
  A myriad of parts and pieces, hinges and brackets and other woodworking supplies can be found here
  [http://ww Hardware.com/](http://ww Hardware.com/)
  For those looking for older style hardware this place may have it
  Here’s a couple of links to a lot of woodworkers supplies and resources

Individual parts listings by part

- **Latches, handles**
  Hatch Latches – Latches for holding your galley hatch closed.
  [http://www.teardroptrailers.net/parts/latch/latch.htm](http://www.teardroptrailers.net/parts/latch/latch.htm) ….best to contact by phone…phone # is 530 878-0407

  Cupboard Latches – Latches for holding your cabin and galley cupboard doors closed

  Entrance door latches – Old style flat steel door latches
  [http://www.teardroptrailers.net/parts/latch/latch.htm](http://www.teardroptrailers.net/parts/latch/latch.htm) ….best to contact by phone…phone # is 530 878-0407

  Old style latches and handles
  [http://www.teardrops.net/LilBear/parts.html#handles](http://www.teardrops.net/LilBear/parts.html#handles)
I have also seen standard door hardware and screen door hardware used for the cabin doors. The thickness of the doors will be the determining factor in what you can use. Shims could also be used to get the thickness you need.

### Drawer Slides

- **Drawer Slides**

  Here is a good selection listed by extension and capacities

  [http://www.rockler.com/search_results.cfm?filter=drawer+slides&submit.x=10&submit.y=6](http://www.rockler.com/search_results.cfm?filter=drawer+slides&submit.x=10&submit.y=6)

  A large selection of drawer slides are available locally at the big box stores and other hardware stores so it is best to shop around before paying shipping on something you can pick up down the road.

### Electric Parts/Supplies

- **Grand Brass Lamp Parts**

  Unusual in that their primary sales are lamp fixtures, parts and pieces, antique to modern.

  Porch lights

  Interior dome lights

  [http://www.teardrops.net/LilBear/parts.html#LicensePlateBracket](http://www.teardrops.net/LilBear/parts.html#LicensePlateBracket)

  Battery cutoff switch

  Converters, Inverters, 12v electric supplies

  [http://pplmotorhomes.com/parts/rv-converters-electrical-batteries-1.htm#Batteries](http://pplmotorhomes.com/parts/rv-converters-electrical-batteries-1.htm#Batteries)

  Marine breaker panels and other electrical parts

  [http://www.boatersworld.com/webapp/wcs/stores/servlet/CategoryDisplay?storeId=10051&catalogId=10051&langId=-1&categoryId=310029&bct=t249085](http://www.boatersworld.com/webapp/wcs/stores/servlet/CategoryDisplay?storeId=10051&catalogId=10051&langId=-1&categoryId=310029&bct=t249085)

  [http://www.westmarine.com/webapp/wcs/stores/servlet/ProductDisplay?storeId=10001&langId=-1&catalogId=10001&productId=59947&catalogId=10001&classNum=348&subdeptNum=118&storeNum=9](http://www.westmarine.com/webapp/wcs/stores/servlet/ProductDisplay?storeId=10001&langId=-1&catalogId=10001&productId=59947&catalogId=10001&classNum=348&subdeptNum=118&storeNum=9)

Pre-made electrical panels can be found here
http://americandirect.ibuilder.com/
Battery charger
http://www.batterymart.com/battery.mv?p=DEL-022-0157-1

Cloth

- **Awning cloth, upholstery cloth, TD cover cloth**
  A large variety of useful cloth can be found here, sold by the yard in various widths. Doesn’t look terribly expensive but certainly not cheap but if you can do your own sewing it could probably save a pile of money over buying pre-made.
This looks like it could be another good cloth site for theme material.

### Venting

- **Vent hole covers**
West Marine at [http://www.westmarine.com/](http://www.westmarine.com/) is useful for a lot of supplies, vent hole covers, often referred to as clamshell covers are one of them
[http://www.westmarine.com/webapp/wcs/stores/servlet/ProductDisplay?storeId=10001&langId=-1&catalogId=10001&productId=21643](http://www.westmarine.com/webapp/wcs/stores/servlet/ProductDisplay?storeId=10001&langId=-1&catalogId=10001&productId=21643)

### Plumbing Supplies

- **Sinks**
   Round and square sinks

- **Spigots**
   Galley hand pump spigot

- **Water tanks**
   Low profile water fresh water tank
   Custom made freshwater tanks
   Water tanks

- **Water fill adapters**
   Various water fill ports and hose adapters
• Electric water pump

## Galley Hatch

• Hatch props
Gas spring struts
http://www.austinhardware.com/dept.asp?dept%5Fid=253

Manual hatch props
http://www.austinhardware.com/dept.asp?dept%5Fid=121

Automatic spring hatch props

• Hatch latches
Lockable galley latches
http://austinhardware.com/product.asp?dept%5Fid=134&pf%5Fid=1364

## Heating/Air conditioning

• Forced air furnaces
RV forced air furnaces that will fit in your Tear
http://www.ducktec.com/evereststar.htm

More furnaces
http://www.rvpartmentonline.com/furnaceslpgas/Page1.html

A somewhat pricey heating and A/C unit that some TD’ers have used successfully called The Pet Cool
http://www.atrendyhome.com/noname10.html

Here is an alternate cooling system, slightly labor intensive but functional none the less these can also be custom built by you to meet your needs;
http://www.kooleraire.com/

## Other useful items  (maybe)

• Door Vent Shades
Vent shades/drip caps for over the cabin doors
http://www.rvlifestyle.net/Parts.aspx?id=592000022113&subcatid=8660000015019&C
ategoryNumber=06&Magick=9RBVX0710140037777&DealerID=001003982890&GUID=
7b8191b2-3af8-486a-aa41-9685744289a1
• **Blenders**
Need a blender for those Margaritas that doesn’t run off of 110v but will still get the job done? Try one of these:
The Blender Blaster
And for those with a slightly smaller budget there is the Boat Blender
Another for those with good arms

• **Cookware**
A good source of graniteware cookware and other camping supplies
An interesting novelty griddle

Coffee grinder

• **Adjustable table leg**

• **Table pedestal**

• **12v electric bed heaters**

• **Table pedestal and hardware**

• **Mattress and cushion foam – custom cut**
Knox Foam will custom cut your mattress or seat cushion foam
FoamProducts.net also does custom cut memory foam mattresses
[http://www.foamproducts.net/](http://www.foamproducts.net/)
This page has an entire list of memory foam suppliers

• **Custom graphics for your trailer**
http://www.decalzone.com/

- **Coolers and ice boxes**
  Galley mounted ice boxes
  http://www.formcoinc.com/ice.html
  The stainless and painted Coleman coolers are very popular among TD’ers for their retro look
  This one is particularly nice
  Like to build your own cooler? Check out this guide
  http://www.epoxyworks.com/19/Building_Icebox.html

- **Tongue boxes**
  Nice diamond plate tongue box
  http://www.jcwhitney.com/webapp/wcs/stores/servlet/Item?storeId=10101&Pr=p_CATEG NTRY_ID%3A405628&mediaCode=ZX&productId=2007185&appId=405628&langId= -1&catalogId=10101

- **Roof racks and carriers**
  Roof racks for bikes, boats etc.
  http://www.teardrops.net/LilBear/parts.html#RoofRack

- **Propane parts**
  Propane bottles, regulators and adapters
  http://www.cabelas.com/products/Cpod0013259.jsp
  This is the adapter used to refill the 1lb propane bottles from a standard 20lb bottle
  http://www.harborfreightusa.com/usa/itemdisplay/displayItem.do?itemid=45989&Catego ryName=&SubCategoryName=
  http://www.heatershop.com/1lb_propane_bottle_fill_kit.html

- **Easy ups and canopies**
  Screen rooms
EZ UPS  [http://www.ezupdirect.com/]
An SUV tent that could be used on the side of a Tear
[http://store.summitracing.com/]
Search ‘SUV tent’
[http://www.tentsontrucks.com/newsuvtent.htm]

- **Stoves, ovens and grills**
  Stoves, ovens and combos that may work for you
  [http://www.northerntool.com/webapp/wcs/stores/servlet/ProductDisplay?storeId=6970&productId=200317038&R=200317038]
  Camp oven
  The Flamineta – a small 2 burner stove with oven can be found here
  [http://www.eagleappliances.co.za/display_product_3019.htm]
  Coleman grill
  Coleman propane oven
  Coleman prop oven
  Outback stove/oven combo
  [http://www.cabelas.com/cabelas/en/templates/links/link.jsp?id=0030006517180a&type=product&cmCat=search&returnString=hasJS=true&_D%3AhhasJS=+%QueryText=oven&Go.x=0&Go.y=0&_DARGS=%2Fcabelas%2Fen%2Fcommon%2Fsearch%2Fsearch-box.jsp.22&N=4887&Ntk=Products&Ntx=mode+matchall&Nty=1&Ntt=oven&nолmage=0&returnPage=search-results1.jsp]

- **CAD Programs**
  Here are links to some CAD programs that might be useful, some free, some not so free (some tutorials also)
  Ironcad trial
  [http://www.ironcad.com/product/]
  Ironcad tutorial
http://www.ironcad.com/download/ironcad/tutorials/
Free TurboCAD site
http://www.al-ki.com/tcad/download.php#TurboCADLE
More free CAD stuff

- **Table Brackets**
  Here are some brackets used to hold your table to the side of your TD (inside or out)
  Stainless ones for outside use

---

**Out of country parts lists**

(these may be of some help to you folks)

- **Aluminum suppliers**
  This site looks like a good source for aluminum, latches, handles, windows, doors, roof vents, etc. Look around. They’ve got lots of stuff.
  http://www.caralu.nl/login.php/language/EN?osCsid=1e3937a156e2309b9ec24443ac2dad54

- **Knot tying website might be useful**
  http://www.animatedknots.com/
